### SaaS Sales Manager (AI Solutions), ZKTeco Biometrics India Pvt Ltd Oct 2025 – Present | Bangalore

• Lead enterprise sales and solution development for AI and SaaS products including Ralvie.AI AI Voice Agent and AI Receptionist, managing the sales cycle from prospecting and discovery through demonstrations, solution design, proposals, negotiation, onboarding and post-sale engagement.
• Conduct customer discovery and requirements gathering to understand business challenges and translate them into AI/SaaS solutions, workflows and implementation requirements.
• Manage approximately 200+ leads per month and 20+ product demos per month, with an average deal size of approximately ■1L and contributing to an annual sales target of approximately ■50L.
• Sell SaaS subscriptions and AI solutions across hospitality, automotive, restaurants and storage solutions, with international sales across the US and Canada.
• Support AI engineering teams with AI voice-agent configuration, receptionist call flows, call routing and deployment requirements based on customer use cases.
• Work with developers, UI/UX teams and business stakeholders on product feedback, feature requirements, workflow improvements and API/system-integration discussions.
• Manage enterprise onboarding, customer success and implementation requirements to support product adoption.
• Contribute to pricing strategy, competitor analysis and go-to-market planning for AI-driven SaaS solutions.
• Designed and deployed internal AI-assisted web tools for email marketing, lead generation and social-media automation using Python, APIs, Docker, Git/GitHub, VS Code and generative AI.
• Improved sales conversion by 15% through structured discovery, consultative selling and solution-based pitching.

### Digital Sales Manager, Kevnit Digital Solutions Apr 2025 – Sep 2025 | Bangalore

• Led B2B sales, enterprise client acquisition and revenue growth while managing a 7-member cross-functional team across sales, web development and content.
• Exceeded monthly sales targets by 15% through pipeline optimization, data-driven sales strategies and team coaching.
• Closed high-value B2B/enterprise deals and increased average deal size by 15% through tiered pricing models.
• Increased inbound enquiries by 20% and maintained 95% client retention through proactive account management and client reviews.
• Developed sales processes, SOPs and performance-review mechanisms while conducting competitor and market analysis.

### Team Leader, Sales, WebHunky Oct 2024 – Mar 2025 | Bangalore

• Led B2B sales operations and team performance, exceeding sales targets by 20%+.
• Closed high-value B2B deals, supported enterprise onboarding and increased average deal size by 8.5x through value-based pricing.
• Increased qualified leads by 70% and maintained 95% client retention through targeted campaigns and proactive account management.

• Managed international sales activities and supported positioning of AI-focused marketing solutions.

### Sales Manager, Aliens Group Feb 2024 – Sep 2024 | Hyderabad

• Drove revenue through cross-selling and upselling, increasing customer value and deal size.
• Converted cold leads through WhatsApp-based outreach and structured lead qualification.
• Streamlined multi-location sales operations to improve lead conversion and customer experience.
• Managed international sales activities alongside domestic business development.

### Key Account Manager, Bsharp Sales Enablers Feb 2022 – Dec 2023 | Bangalore

• Managed 9 strategic SMB and enterprise accounts simultaneously, supporting SaaS solutions used by 4,000+ users/retailers, including Western Digital, Lenovo, Amazon and Titan.
• Managed approximately ■50 lakh in account value, overseeing client relationships, product adoption, renewals, expansion opportunities and account health.
• Conducted weekly stakeholder meetings and QBRs with senior managers, directors and cross-functional stakeholders.
• Maintained 90% account retention and 95%+ client satisfaction through proactive engagement, account planning and daily account-health monitoring.
• Led upsell and cross-sell initiatives for Western Digital and Lenovo, while managing renewals, commercial discussions and customer escalations.
• Coordinated with product, technology, UI/UX and content teams to translate customer requirements into solutions and improve product adoption.
• Developed training and product-content solutions contributing to 40% growth in Lenovo partner sales and 30% improvement in Western Digital product adoption across 500+ retailers.
• Increased Western Digital retailer participation by 35% and reduced onboarding time by 50% through WhatsApp-based training programs.
• Identified and drove client-specific SaaS solutions for Western Digital, Lenovo and Titan, translating customer requirements through solution development and launch.
