Work Experience

SaaS Sales (AI Solutions), *ZKTeco Biometrics India Pvt Ltd* Oct 2025 – Present | Bangalore, India

- Lead AI and SaaS solution development and enterprise sales for products including **Ralvie.AI** **AI Voice Agent and AI Receptionist**, managing discovery, requirements, demonstrations, solution design, proposals, negotiation, onboarding and post-sale engagement.
- Conduct customer discovery and translate business problems into **product requirements, workflows and technology solutions**, collaborating with developers, UI/UX and business stakeholders.
- Support AI engineering teams with AI voice-agent account configuration, AI-specific setup, receptionist call flows, call routing and deployment requirements based on customer use cases.
- Work on **feature definition, product feedback, UI/UX improvements, API/integration discussions, pricing, competitor analysis and GTM strategy**.
- Manage approximately **200+ leads per month** and **20+ product demos per month**, with an average **deal size of approximately ₹1L** and contributing to an **annual sales target of approximately ₹50L**.
- Sell SaaS subscriptions and AI solutions across hospitality, automotive, restaurants and storage solutions, with international sales across the **US and Canada**.
- Manage enterprise onboarding, customer success and implementation requirements to drive successful product adoption.
- Designed and deployed internal AI-assisted web tools for email marketing, lead generation and social-media automation using **Python, APIs, Docker, Git/GitHub, VS Code and generative AI**, improving GTM efficiency and reducing reliance on external tools.
- Improved sales conversion by **15%** through structured discovery, consultative selling and solution-based pitching.

Digital Sales Manager, *Kevnit Digital Solutions* Apr 2025 – Sep 2025 | Bangalore, India

- Led B2B sales, client acquisition and revenue growth while managing a **7-member cross-functional team** across sales, web development and content.
- Exceeded **monthly sales targets by 15%** through pipeline optimization, data-driven strategies and team coaching.
- Closed high-value B2B/enterprise deals and negotiated commercial solutions; increased average deal size by **15% through tiered pricing models**.
- Increased inbound enquiries by **20%** and maintained **95% client retention** through proactive account management and client reviews.
- Developed sales processes, SOPs and performance-review mechanisms while conducting competitor and market analysis.

- Collaborated with the **web development team on website development and design**, contributed to content published on client websites, and supported new company logo design initiatives.

Team Leader, Sales, *WebHunky* Oct 2024 – Mar 2025 | Bangalore

- Led B2B sales operations and team performance, exceeding sales targets by **20%+**.
- Closed high-value B2B deals, supported enterprise onboarding and increased average deal size by **8.5x through value-based pricing**.
- Increased qualified leads by **70%** and maintained **95% client retention** through targeted campaigns and proactive account management.
- Managed international sales activities and supported positioning of AI-focused marketing solutions.
- Collaborated with the **web development team on website development and design**, contributed to client website content, and supported new company logo design initiatives.

Sales Manager, *Aliens Group* Feb 2024 – Sep 2024 | Hyderabad, India

- Drove revenue through **cross-selling and upselling** while increasing customer value and deal size.
- Converted cold leads through **WhatsApp-based outreach** and streamlined multi-location sales operations to improve lead conversion and customer experience.
- Managed international sales activities alongside domestic business development.

Key Account Manager, *Bsharp Sales Enablers* Feb 2022 – Dec 2023 | Bangalore, India

- Managed **9 strategic SMB and enterprise accounts simultaneously**, supporting SaaS solutions used by **4,000+ users/retailers**, including Western Digital, Lenovo, Amazon and Titan.
- Managed approximately **₹50 lakh in account value**, overseeing account health, product adoption, renewals, expansion opportunities and customer relationships.
- Conducted **weekly stakeholder meetings and QBRs**, managing relationships with senior managers, directors and cross-functional stakeholders across client organizations.
- Maintained **90% account retention and 95%+ client satisfaction** through proactive engagement, monthly account planning and daily monitoring of account health and product adoption.
- Managed escalations, renewals and commercial discussions while coordinating with **product, technology, UI/UX and content teams** to resolve customer requirements.
- Led upsell/cross-sell initiatives for Western Digital and Lenovo and identified expansion opportunities based on customer needs and product adoption.
- Developed training and product-content solutions contributing to **40% growth in Lenovo partner sales and 30% improvement in Western Digital product adoption** across 500+ retailers.
- Increased Western Digital retailer participation by **35%** and reduced onboarding time by **50%** through WhatsApp-based training programs.
- Identified and drove client-specific SaaS solutions including **Western Digital MEA sales enablement, Lenovo's trackable MBS incentive solution and Titan's multi-brand learning platform**, translating stakeholder requirements through development and launch.
- Coordinated with **50+ client-side stakeholders** and internal cross-functional teams to deliver customer-specific solutions and manage ongoing account requirements.
